

DINOSAURS:

Have you been
brainwashed?

I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins... you're making the television production of this program possible.

And to all the **beasts** of the earth and all the **birds** of the air and **all the creatures that move on the ground**-everything that has the breath of life in it-**I give every green plant for food.**" And it was so.

Match the bat's teeth to the food.

These drawings (after A.H. Mueller, *Lehrbuch der Palaeozoologie*, 1959, p. 41) show the teeth of different groups of living bats. Each has a chief source of food different from that of the others

The Dinosaur bones: *Engineering Masterpieces!*

Interestingly, it was an *evolutionary scientist* who said the bones of *Brachiosaurus* are a masterpiece of engineering.

The *design* of the vertebrae was such that it provided great support for the huge dinosaur, but was also extremely lightweight.

Evolutionists claim that all life, including *dinosaurs*, were the product of random processes. Yet they make statements about the wonderful *design* seen everywhere we look!
