

The Big Freeze

The Big Freeze

I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins... you're making the television production of this program possible.

The Global Flood

A Salt Water Legacy!

The existence of salt lakes and inland seas provide strong evidence that there's been a global flood. The huge salty Caspian Sea is landlocked and has been shrinking in size.

Lake Van (5,900') near Mt. Ararat and Lake Urmia (4,300') are excellent examples of high-elevation, land-locked, salty lakes.

How did water get so far inland? Why didn't it dry up long ago? A gigantic flood within the last 5,000 years would seem a very good answer!
